CHOOSE FROM OUR FULL LINE OF STEEL CARPORTS

AMERICAN STEEL

Our full line of buildings come in a variety of shapes and sizes. Our extensive variety ranges from Open Carports, Partially enclosed Carports, Mini Storage units, Garages, Warehouses and even Portable Hunting Blinds. We can customize your unit to accommodate your steel metal needs. Choose from our Standard Style, A-Frames, Hexagon and Agricultural units. Each building is carefully constructed from 29 gauge steel for the paneling of roof and sides and your choice of 12 or 14 gauge steel tubing for the framework. Each and every building is Engineered-certified to meet your state and local codes. We use steel with a commercially baked on finish to provide years of low maintenance. We offer additional anchors to provide a 90 MPH Wind Warranty to put your mind at ease. Can't find exactly what you need? Give us your specifications and we'll work with you to create the building that matches your requirements. IF YOU CAN IMAGINE IT, WE CAN CREATE IT!!!
